

DRYER TIMERS

Cross
Reference

Robertshaw®

Robertshaw® Clothes Dryer Timers are designed to respond accurately to the amount of time set by the consumer. These timers have a permanent magnet synchronous motor rated at 3 Watts of power consumption. Timing functions are controlled by high accuracy molded cams and have switches that control two to six circuits. Connections to the timer terminals provide for quick disconnect plugs. Terminals are 1/4" x 5/16" male quick connects. All Robertshaw Clothes Dryer Timers are UL and CSA recognized.
