Description

The Robertshaw® Universal Rod Flame Sensor (part number 10-760) is a premium-grade solution designed to enhance safety and efficiency in your heating systems. Crafted with precision engineering and built to last, this durable and reliable flame sensor ensures accurate flame detection for optimal performance.

Its robust construction guarantees longevity, even in demanding environments. With its universal compatibility, this sensor seamlessly integrates into a wide range of heating systems, offering versatility and convenience.

Upgrade your heating system today with the Universal Rod Flame Sensor, the ideal choice for discerning customers seeking long-lasting quality and exceptional performance.

Features and Benefits

- Sensor rods that withstand temperatures up to 1800°F
- The 4" sensor long rod can be cut and bent to replace over 100 part numbers
- Includes 30" of Teflon® insulated lead wire with a 482°F (250°C) rating
- Connects to a 1/4" quick connect terminal

Applications

- Gas furnaces
- Water heaters
- Hot surface ignition systems
