

# BF8 Series

## Oven Burners

## Description

The Robertshaw® atmospheric BF8 oven burner is tailored for cooking applications prioritizing cost-efficiency. With its minimalist design, it effectively achieves the desired oven temperature even during low-power operation. Constructed from aluminized steel, the BF8 oven burner ensures longevity, consistent with the quality standards of our burner portfolio, including the BF7 and Robertshaw tubular burners.

## Features and Benefits

- Venturi inlet for optimal gas mixture
- Uniform flame ports prevent obstruction
- Dual flame rows for even heat distribution
- Reliable ignition
- Simple mounting
- Compact, lightweight design

## Specifications

- Used with natural, LP, or mixed gases
- Power rating: Up to 2,100 Watts [6800 BTU]
- Steel grade is AISI C1008
