Robertshaw's quality-tested components are engineered for maximum durability, ensuring uninterrupted ice production for years to come.

ICE MACHINE OPPORTUNITIES

WATER VALVES

IMV-865

- These water inlet solenoid valves are designed for precise fluid management and automatically regulate potable incoming water flow to the sump, batch fill, or dispenser during the freeze and harvest cycles across major ice machine brands such as Scotsman, Manitowoc, and Elkay.

Part No.	Description	Replaces
IMV-1622	24V Bottle Filler Solenoid Valve	Elkay 1000001622
IMV-4305	Solenoid Valve with Regulator, 120V	Elkay 1000004305
IMV-4306	Stainless Steel Solenoid Valve, 120V	Elkay 1000004306
IMV-4307	Solenoid Valve, 220-240V	Elkay 1000004307
IMV-4308	Water Dispensing Solenoid Valve	Elkay 1000004308
IMV-4907	120V Direct-Acting Solenoid Valve	Elkay 1000004907
IMV-5981	1/4" Drinking Fountain Solenoid Valve	Elkay 35981C
IMV-6247	Drinking Fountain Water Solenoid Valve	Elkay 36247C
IMV-865	24V Water Valve	Hoshizaki 4A0865-01, 4A5251-01
IMV-12209	Ice Machine Water Inlet Valve	Manitowoc 12209
IMV-2009093	Water Inlet Valve with Coil	Manitowoc 2009093

Part No.	Description	Replaces
IMV-1646	120V Water Inlet Valve	Scotsman 12-1646-01
IMV-2548	24V Water Solenoid Valve	Scotsman 12-2548-01
IMV-2666	24V 2.7 GPM Water Solenoid Valve	Scotsman 12-2666-01
IMV-2907	Ice Machine Water Inlet Valve	Scotsman 12-2907-01
IMV-001	115V Water Inlet Valve	Scotsman 12-2990-01
IMV-3055	Ice Machine Water Inlet Valve	Scotsman 12-3055-01
IMV-3088	115V Water Solenoid Valve	Scotsman 12-3088-01
IMV-31241	120V Water Inlet Solenoid Valve	Scotsman 12-3124-01
IMV-31242	240V Water Inlet Solenoid Valve	Scotsman 12-3124-02
IMV-3124	Water Inlet Solenoid Valve	Scotsman 12-3124-07

COLD CONTROLS

A22-1129

- The A-22 and A-30 Series Cold Controls are heavy-duty, electromechanical temperature controls designed to regulate critical operational cycles and ice levels in commercial ice machines and refrigeration units.

[Learn More](#) »

Part No.	Description	Replaces
A22-1129	Ice Bin Level Control	Marmon 620058753
A22-4506	Ice Harvest Control	Scotsman 11-0428-01
A30-3952	Ice Machine Thermostat	Hoshizaki 4A2879-01
A30-3761	Ice Machine Thermostat	Hoshizaki 437626-01
A30-3953	Thermostatic Bin Control	Hoshizaki 4A2879-02

DEFROST TIMERS

G1401-00

- This commercial-grade Defrost Timer delivers reliable defrost management by executing automated 25-minute defrost cycles every 6 hours to prevent frost accumulation and maintain consistent cooling performance.

Part No.	Description	Replaces
G1401-00	Defrost timer/ Freezer Prep Table	Hoshizaki 4A2879-02

FILTER DRIERS

RFD-053S

- The RFD Series mono-flow filter driers utilize a solid-core desiccant to effectively capture moisture, acid, and solid contaminants to protect harvest components and prevent freeze-ups for refrigeration and ice machine applications.

[Learn More](#) »

Part No.	Description	Replaces
RFD-032S	Filter Drier	Hoshizaki 4A1113-01 / CF1B/CF1S
RFD-163S	Filter Drier	Manitowoc 8930279
RFD-052S	Filter Drier	Manitowoc 8930249 / 000017973
RFD-032S	Filter Drier	Scotsman 02-3319-01
RFD-053S	Filter Drier	Scotsman 02-3319-02
RFD-033S	Filter Drier	Scotsman 02-3231-02

PRESSURE CONTROLS

O10-1402

- The O-Series Low Pressure Control connects directly to the suction line to protect the compressor against unsafe low system pressures and to automatically trigger defrost or harvest cycles when suction pressure drops.

[Learn More](#) »

Part No.	Description	Replaces
O10-1402	Pressure Control	Manitowoc 14187

TEMPERATURE CONTROLS

O18-100

- The O-Series Ice Bank Control utilizes a capillary bulb sensing element to monitor temperatures and trigger an SPST switch, regulating precise ice thickness on the evaporator during the freeze cycle.
